### CHANGES AND NEW TRADITIONS COMING TO MARY H. WOOD PARK

The Borough of Conshohocken would like to announce that as of this morning, October 23, 2017 a 15-foot Norwegian spruce tree was planted in front of the Mary H. Wood Park House by the Department of Public Services. This not only replaces the tree, which was removed from the grounds this summer, but it has also been strategically installed so that it can be used during future Christmas tree lighting events.

This is just the start of many changes coming to Mary H. Wood Park. In spring of 2018 the Borough will also be installing all new playground equipment. Renderings of the new equipment and layout can be viewed below. Demolition and removal of the existing park equipment will be posted to the Borough website and TV channel once details are available.
